

Dual Eligible Special Needs Plans (D-SNP)

Rebecca Wartman OD

June 2024

In 2003, the Medicare Final Rule created new plans now referred to as Dual Eligible Special Needs Plans (D-DNP). These plans began operating in 2006 and were made permanent in 2018. A type of Medicare Advantage plan (termed D-DNP plans), these plans are designed to aid patients enrolled in Medicare and Medicaid improve the coordination of services with the hope of better care coordination, reduced duplicate care and reduced costs. The patients who are eligible for these plans tend to have complex medical conditions which cost the system a significant number of dollars. As well, patients trying to navigate two different insurances can easily become confused on which plan covers what services. D-SNP plans are required to screen for transportation, housing, and food security needs; and establish and maintain an enrollee advisory committee in addition to covering all needed medical care.

D-SNP plans must take certain steps to improve the coordination of care, as required by the federal law and regulations. While some states use the CMS Financial Alignment Initiative for their care coordination, other states use contracts between their Medicaid agency and the Medicare Advantage Dual Eligible Special Needs Plans (D-SNPs) for this care coordination.

Per the [Kaiser Family Foundation](#), the D-SNP enrollees are diverse with “nearly half are people of color and nearly 40% are under age 65. However, this group of people share some common characteristics, such as limited financial means and health care needs that are more wide-ranging and complex than the average Medicare enrollee.” The current overall national D-SNP enrollment is thought to be over five million individuals, having doubled in the last four years alone. In Mississippi, as of April 2024, there are 20-30% of the dual eligible patient enrolled in D-SNP with approximately 24% of those being fully dual eligible (FBDE- Full benefit Dual Eligible). In 2020, per [MedPac](#) Data, the estimated number of Mississippians eligible for fully dual-eligible benefits was 83, 000 with another 89,000 patients eligible for partial benefits. From 2018 to 2020, these numbers represent less than 0.5% decline in enrollment. More recent statistics are not available.

Beyond the fully dual-eligible patients (FBDE), there are several categories of Medicare Cost Sharing for those low-income seniors who need help paying their medical expenses. The type of cost sharing may impact how each of the D-DNP plans apply and what out-of-pocket expenses a patient may have. States can layer on requirements for additional coordination activities and set limits in their contracts with D-SNPs on patients who are only partially dual-eligible over and above the federal requirements (see definitions in attached document). The partially dual eligible individuals are only enrolled in a Medicare Savings Plan such as Qualified Medicare Beneficiary (QMB), Specified Low-Income Medicare Beneficiary (SLMB), Qualified Disabled and Working Individuals (QDWI), or Qualified Individual (QI). Patients with less than full Medicaid benefits may be responsible for some of the out-of-pocket expenses that may incur with health care. You can view the applicable co-payments and deductibles under each of the plan’s summary of benefits. (Links below)

Nationally, approximately 50% of D-SNP patients are enrolled in United Health Care or Humana plans. Mississippi now has eight different D-SNP plans operating in various counties but note that the Allwell plan was not offered in 2024. (See the list below.) Keep in mind that each of these companies may operate more than one D-DNP plan under their banner. Patients should be reminded to verify their Medicaid eligibility annually. For MQB patients, “Medicare providers can’t bill QMB beneficiaries for Medicare cost-sharing. This includes Medicare deductibles, coinsurance, and copayments. In some cases, a beneficiary may owe a small Medicaid copayment. Medicare and Medicaid payments (if any), and any applicable Medicaid QMB copayment are considered payment in full. You’re subject to sanctions if you bill a QMB above the total Medicare and Medicaid payments (even when Medicaid pays nothing).” ([https://www.cms.gov/outreach-and-education/medicare-learning-network-](https://www.cms.gov/outreach-and-education/medicare-learning-network-mln/mlnproducts/downloads/medicare_beneficiaries_dual_eligibles_at_a_glance.pdf)

Happy coding....

Minimum D-SNP Contract Requirements

Note that the SNP is responsible for all of the Medicaid benefits under the plan.

Some of these patients may have out of pocket cost responsibilities

Some plans do provide patients' debit cards for some out-of-pocket expenses. See Evidence of Coverage for the complete listing of patient billables.

Minimum MIPPA Requirements for D-SNP Contracts

D-SNPs must submit their contracts with states to CMS for review by July 1 of the year before the D-SNP federal contract year begins (by July 1, 2016 for calendar year 2017, for example). At a minimum D-SNP contracts with states must document:¹⁰

1. The D-SNP's responsibility, including financial obligations, to provide or arrange for Medicaid benefits.
2. The categories of dually eligible beneficiaries eligible to be enrolled under the SNP (e.g., full benefit, Qualified Medicare Beneficiaries (QMB), Specified Low-Income Medicare Beneficiaries (SLMB), etc.).¹¹
3. The Medicaid benefits covered under the SNP.
4. The cost sharing protections covered under the SNP.
5. The requirements to identify and share information on Medicaid provider participation.
6. The procedural requirements for the verification of enrollees' eligibility for both Medicare and Medicaid.
7. The service area covered by the SNP.
8. The contract period for the SNP.

Listing of Dual Special Needs Plans from Mississippi Medicaid

NOTE: Allwell from Magnolia and Harmony Health are both under Wellcare for D-SNP plans

Vantage Health Plan is now Primewell Health of Mississippi

<https://medicaid.ms.gov/programs/dual-special-needs-plans-dsnps/>

Categories of Medicare Cost Sharing

Qualified Medicare Beneficiaries (QMB): Medicaid pays Medicare premiums, deductibles, coinsurance and copayments. Total monthly income cannot exceed 100% of the federal poverty level for an individual or married couple and without regard to personal resource. Must be eligible for Medicare Part A.

Qualified Medicare Beneficiaries Plus (QMB+): Same benefits as MQB in addition to full Medicaid Benefits

Specified Low-Income Medicare Beneficiary (SLMB): Medicaid pays only Part B premiums and are not qualified for any additional Medicaid benefits. Total monthly income cannot exceed 120% of the federal poverty level for an individual or married couple and without regard for personal resources. Must have Medicare Part A.

Specified Low-Income Medicare Beneficiary Plus (SLMB+): Same benefits as SLMB in addition to full Medicaid Benefits

Qualifying Individual (QI): Medicaid will pay only Part B premium and are not qualify for any additional Medicaid benefits. Total monthly income cannot exceed 135% of the federal poverty level for an individual or married couple and without regard to personal resource. Must have for Medicare Part A.

Qualified Disabled Working Individual (QDWI): Medicaid will pay costs associated with Medicare Part A

Dual Special Needs Plans (FBDE): Applies to those who are eligible for both Medicaid and Medicare ("dual eligibles") DSNPs offer care coordination and provide supplemental benefits to their members to improve the coordination of services and enhance quality of care. Dual Eligible patient can enroll in a DSNP during their Medicare annual election period or at the start of every month.
